

Banfield Referral Program Policy

The program

At Banfield, we **Dream big** to fulfill our purpose: A BETTER WORLD FOR PETS. It's part of our **Do good** culture, where our Associates are the heart of our business. That's why we reward Associates who influence other veterinary professionals to join our hospital teams and **Be here** for our clients and their pets.

Program guidelines: Banfield Associates & Veterinarian students with accepted offers

Network, engage, and influence external veterinary talent to consider Banfield! When your referral is engaged (open to being contacted by a recruiter) and has consented to having their information shared with Banfield, the referring Associate can submit the referral's information through the **Banfield Referral Program form**, and a Recruiter will reach out to referred candidate.

During the recruitment process, Talent Acquisition will confirm which Banfield Associate(s) influenced the candidate. Referral eligibility is determined 30 days after the new hire's start date.

How bonuses are determined:

- If the referred candidate **names** the referring Associate as the reason they are joining Banfield and is hired into an eligible role, the Associate may qualify for the applicable **referral bonus**.
- If the referred candidate **does not name** the referring Associate as an influencing factor, then the Associate will not be considered for the bonus.
- If **multiple Banfield Associates are identified** as influencing factors and the candidate is hired into an eligible role, **the referral bonus may be split** among eligible Associates.

Payment & eligibility: Banfield Associates & Veterinarian students with accepted offers

Bonus amounts are subject to change based on location, position, or seasonal promotion. Standard payout amounts are:

- Full-time Veterinarian: \$25,000
- Full-time Credentialed Veterinary Technician: \$10,000
